

Pre-renovation: one and a half storey, 2 bedroom, 1 bathroom, small entrance, minimal storage, inefficient energy consumption.

Pre-renovation: few small windows, minimal natural light.

Post-renovation: two storey, 3 bedroom, 3 bathroom, enlarged entrance, new electrical/plumbing, HVAC, energy efficient.

Post-renovation: excellent natural light, improved layout for better use of outdoor space.

Thumbs up! Stefano takes care of the project from start to finish, personally supervising and inspecting all workmanship.

From the ground up: building a solid foundation of satisfied clients, Est-El Development prides itself on it's solid reputation.

It's a craft: Master builders and craftsmen are never in short supply. Est-El builders are the best in the business.

Measure twice, cut once: efficient, hardworking tradespeople working on the Est-El team are crucial to any project's success.
